ELIGIBILITY REQUIREMENTS FOR COMMERCIAL APPLICATOR CERTIFICATION

2

Prior to making application for **Commercial Applicator (CCA)** certification, a prospective applicant must first complete Pesticide Control Board-approved training. Board-approved training consists of, at a minimum, self-study and review of all the material contained in the most current edition of the Virginia Pesticide Applicator Certification Training CORE Manual, and other category-specific manuals related to the specific type of work to be performed. These manuals may be obtained for a nominal fee from the Virginia Tech Pesticide Programs website at <http://www.vtpp.org> or www.vapesticidemanuals.com

All Commercial Applicators (with the exception of not-for-hire commercial applicators and government employees) **must** either obtain, or work for a firm that has obtained, a Virginia Pesticide Business License issued by the Virginia Department of Agriculture & Consumer Services.

INSTRUCTIONS FOR COMPLETING APPLICATION (B) FOR COMMERCIAL APPLICATOR CERTIFICATION

1. This form is intended only for those applicants who have previously submitted a Commercial Applicator Form A. **If you have never applied to become a Certified Commercial Applicator (CCA), please use Form A.**
2. Return completed application with the corresponding payment (Government employees are fee-exempt). Once your application is approved, you will be sent a Notice of Authorization to take the certification exams. **You may not be permitted to test without supplying your Notice of Authorization at the time of testing.**
3. Within 90 days of the date of the Notice of Authorization, report to an approved testing location to take the written exams. Computerized exams at the DMV Customer Service Centers are scored as you are taking them, and you will be notified of your score as you complete each exam. Written exams taken at VDACS testing centers will be sent to the Office of Pesticide Services in Richmond to be scored.
4. Each Notice of Authorization is valid for only **one** testing session. Retakes are not permitted without re-applying to test. If you fail your exam(s) or your Authorization expires and you have not tested, you must re-apply to test using the **Commercial Applicator Form B**.
5. **To be considered certified (CCA), you must pass a minimum of the core exam and at least one category exam.** Failure of one or both exams will require you to retest to obtain your certification. If you have passed the Core and **at least one or more** category examinations, the Office of Pesticide Services (OPS) will notify you, and send you your certificate, generally within 10 working days. If you take and pass your exam(s) at one of the DMV Customer Service Centers, you will be issued a temporary certificate good for seven days. Your permanent certificate will be mailed to you by OPS within seven days.
6. Once you have obtained your certification, you are responsible for maintaining an active certificate through **recertification training** and **renewing** your certificate biennially. Your expiration **AND** recertification deadlines will be displayed on your certificate. It is your responsibility to notify OPS of any mailing address or employer changes to ensure you receive updates on when to recertify and renew. Should your certificate expire for any reason, you will be required to re-take all examinations needed to reinstate your certificate.

If you have further questions or need additional help applying, call our office at (804)371-0152 or email Emma.Knestaut@vdacs.virginia.gov.

Definitions:

Commercial applicator means any applicator who has completed the requirements as determined by the board, including appropriate training and time in service, to apply for a certification, and who uses or supervises the use of any pesticide for any purpose or on any property other than as provided in the definition of private applicator.

Commercial applicator not for hire means any commercial applicator who uses or supervises the use of pesticides as part of his job duties only on property owned or leased by him or his employer. This definition shall also apply to governmental employees who use or supervise the use of pesticides, whether on property owned or leased by them or their employers or not, in the performance of their official duties.

Currently Certified Applicator refers to any individual who has passed a minimum of both the core exam and one category exam and maintains an active certificate.

Renewal is required biennially by June 30th of the year indicated on your certificate. This is accomplished by submitting a commercial renewal application before the expiration date listed on the applicator's certificate.

Recertification is also required biennially. This is accomplished by attendance at a Virginia approved recertification course for each category you wish to maintain, or by re-testing in lieu of attending training courses. You are required to take at least one course in a two year period, but can take enough courses to obtain four years of credit.
